

MOTHERS MANIFESTO

1 IN 4 YOUNG MUMS IN THE UK ARE SKIPPING MEALS TO FEED THEIR CHILDREN

Globally millions are facing food insecurity and famine.

3 million avoidable deaths happen every year due to malnutrition. That's 1 child every 11 seconds.

"Enough food is produced today to feed everyone on the planet." UN

WE DEMAND BETTER

MAKE SURE ALL CHILDREN IN THE UK HAVE ENOUGH TO EAT

Provide nutritious free school meals for all state schools. Basic rate of Universal Credit that guarantees life's essentials. A living wage as minimum for workers.

KEEP OUR PROMISES ON AID AND CLIMATE

Reverse cuts to the aid budget. Cancel debt to make reparations for the poorest nations. Rapid and ambitious action on the climate and nature crisis. This must include no new fossil fuel exploration or licensing as advocated by the International Energy Agency.

TAX ENERGY COMPANIES' PROFITS

Fund increased aid and investment in a green energy transition via a 90% windfall tax on energy companies' record profits.

#mothersmanifesto

MOTHERS MANIFESTO

We are standing in solidarity with all the mothers and their children who are being failed by the current system. We know that we can make a difference, and with unwavering determination we can create a world in which no child goes hungry. We are calling on MPs to pledge their support for this Manifesto, and to take action on hunger and the right to food in the UK and globally.

"No child should be hungry, no child need be hungry if we only assume our urgent responsibility on inequality. Climate change is accelerating this crisis and we need to address it now. These brave women striking in solidarity with mothers should be listened to in the U.K. and around the world."

Christiana Figueres, former executive secretary of the UNFCCC and co-host of the climate podcast Outrage + Optimism.

"Because I know women really struggling to raise their families because they are getting a raw financial deal from this government. These women cannot take any more. This is why I'm supporting and I urge you to support this too."

Benjamin Zephaniah, poet.
